How to log in from your own PC

- If you are not in the TUC network (check whether your IP address is not 134.109.X.X) or if you are using WLAN: open a VPN connection to the TUC network (see homepage of Universitätsrechenzentrum for details)

- Non-Windows OS (e.g Linux, MacOS): Open an X-terminal and type:

  o xhost pokus.etit.tu-chemnitz.de

  o ssh –X pokus.etit.tu-chemnitz.de

- Windows:

  o If necessary: Install a remote login software (e.g PuTTY) and a local X11 software (e.g. XMING)

  o Configuration of PuTTY:

    ▪ Session: Hostname pokus.etit.tu-chemnitz.de, Port 22, Connection type: SSH

    ▪ Connection – SSH – X11: Enable X11 forwarding

    ▪ Leave the rest as it is

    ▪ Save connection at "Session"

  o Start remote login: First start XMING, then start PuTTY!
